

- Instructions to build the lampstand – Exodus 25:31-40
- Record of building the lampstand – Exodus 37:17-24

The presence of the lampstand provided light.

What is light? Light = truth, understanding (Acts 26:18a; 2 Cor 4:6). Achieving the goal of eternal fellowship with God requires LIGHT.

Note that God did not tell man he needed light and then leave it up to him to design the lampstand and determine how the light would be achieved. As with every detail, all was designed and dictated by God...in great detail. See Exodus 25:40

Learn: Revelation is Required!!!
